Thank You to Our Veterans!

The Bedinghaus family would like to share their story:

At the age of 31, Kristin suffered a stroke. She was at home with her two sets of twins, getting ready to take them to the park. While walking down the stairs, Kristin lost mobility in her left side. Luckily, she had the strength to call her husband, Elliott, who ensured she quickly made it to the hospital. At the hospital, doctors confirmed Kristin had a stroke. Kristin

and her family were shocked by the diagnosis; Kristin was healthy and active, and had no history of stroke in her family. But the biggest shock was when Kristin was told that she would not walk again. Motivated by her four children – and through strength, faith, determination, and her husband Elliott's unconditional support – Kristin now walks and plays with her kids. Kristin says life after stroke is not as natural, but her family helps her create a “new normal” every day.

Thank you for your commitment and generous support! You are continuing to fund lifesaving research and initiatives that will better the lives of families just like the Bedinghaus’.

- Elliott, Kristin, Ross, Ivey, Jett and Jude
