I'm walking to raise funds and support the American Heart Association's mission: To build healthier lives, free of cardiovascular diseases and stroke. Since 1949, the association has contributed more than \$3.2 billion for heart and stroke research that has led to recent breakthroughs such as clot-busting drugs and drug-eluting stents.

I hope I can count on you to support my fundraising efforts and the great work of the American Heart Association and American Stroke Association! Future generations are why we need to work together to build healthier lives, free of cardiovascular diseases and stroke.

Thank you in advance for your support!
