Lifestyle Change Award

Heart disease and stroke remain the No. 1 and No. 5 killers of Americans, although largely preventable. This is why the American Heart Association (AHA) establishes the Lifestyle Change Award to recognize individuals who have made significant and positive changes to improve their quality of life and overall health. This award is presented annually to a deserving individual. Whether they have lost weight, started to eat better, improve their cholesterol through exercise and diet, or a combination of these things and more. The recipient is chosen to inspire others to improve their health. The winner will help the AHA to educate others on how to make similar lifestyle changes and reach its impact goal of improving cardiovascular health in our community.

Do you know someone ... a coworker, a family member or a friend whose health has greatly improved as a result of making long term lifestyle changes?

If you do, please share with us their story about what they did to improve their way of living. How has this impacted their health and how have they stayed on track doing it? Did they inspire you or others? They could be selected as our winner for our 2020 Lifestyle Change Award. This award will be presented at the 2019 America’s Greatest Heart Run & Walk on March 7, 2020.

Nominations can be submitted by:
