

American Heart Association®

Heart Walk & Run™

2022 Lifestyle Change Award Nomination Form

Heart diseases and stroke are the No. 1 and No. 3 causes of death in the Rochester Region, although largely preventable.

The American Heart Association has established the *Lifestyle Change Award* to recognize individuals who have made significant and positive changes to improve their quality of life and overall health.

This award is presented annually to deserving individuals. Whether they have lost weight, started to eat better, improved their cholesterol through exercise and diet, or a combination of these things and more, the recipient is chosen to inspire others to also improve their health.

The winner will help the American Heart Association to educate others on how to make similar lifestyle changes and reach its impact goal of improving the cardiovascular health of all Rochesterians.

Do you know someone...

a coworker, family member, or friend whose health has greatly improved as a result of making long term lifestyle changes?

If you do, please share with us their stories about what they did to improve their way of living. How has this impacted their health and how have they stayed on track doing it? Did they inspire you or others? They could be selected as our winner for our 2022 *Lifestyle Change Award*.

The award will be presented at the Rochester Heart Walk & Run on, Thursday, June 9th.

No change is too small; every accomplishment is significant and should be celebrated!

Deadline for nomination submission: May 16, 2022
