Affirmations

Affirmations are positive phrases or statements used to challenge negative or unhelpful thoughts.

WHAT IS AN AFFIRMATION?

Affirmations are simple, positive statements declaring specific goals in their completed states. These empowering mantras have profound effects on the conscious and unconscious mind.

AFFIRMATION GUIDELINES

Be positive - Never use the words “not”, “never”, “don’t” or “won’t” in an affirmation. For example, instead of writing “I am not afraid to express myself,” you could write, “I am confidently sharing my opinion”.

Be concise - The shorter and more specific the better.

Make them powerful - Use words that inspire and empower you. Examples include “confidently,” “successful,” “consistently,” “brilliant,” or “gracefully”.

Speak in the Present - This ensures that your subconscious mind goes to work on them right away. Stay away from using “I will ...” or “I am going to ...” statements.

Make it Personal - Affirmations are about yourself. They should be about your own behavior, never someone else’s. The only beliefs, attitudes and behaviors you can change are your own.

Putting It Into Practice

You can write your affirmations anywhere, such as in a journal, on a sticky note or your bathroom mirror. Try to practice them regularly. To get into the habit, try to start by sticking with a schedule—for example, you might try repeating your affirmations:

- When you wake up
- On your break at school
- Before going to sleep
