WHAT IS STEM

SCIENCE

- biology
- ecology
- astronomy
- physics
- chemistry
- computer science

TECHNOLOGY

- digital modeling
- 3D printing
- mobile technology
- computer programming
- web development
- game development

ENGINEERING

- civil engineering
- electronics
- electrical engineering
- mechanical engineering
- chemical engineering
- robotics

MATH

- algebra
- geometry
- statistics
- data science
- calculus

Each incorporates the other to build a program referred to as STEM
