Spot a Stroke F.A.S.T **Strokes for Stroke Coloring Book**

Every 40 seconds, someone in the U.S. has a stroke.

It could happen on your street, in your workplace, at a store where you shop — anywhere. Your readiness to spot the stroke warning signs and call 911 could save a life or make the difference between a full recovery and long-term disability. That's why it's so important to learn the stroke warning signs and urge everyone you know to do the same.

The faster stroke is treated, the more likely the patient is to recover.
