

2025 Southern New England

GO RED FOR WOMEN LUNCHEON

As women, our greatest
resource is each other.

Let's Go Red, Together!

April, 3, 2025

American Heart Association.

WELCOME

Welcome! This year, we are honored to serve as Co-Chairs for the 2025 Go Red for Women Luncheon in Southern New England. This year marks the 21st anniversary of the Go Red for Women Campaign and the American Heart Association's second century of effort, work, and programs to improve cardiovascular health for all. We are proud to be part of and support the Association's mission to give hope, healing, and more time with loved ones by protecting those hearts that are more vulnerable than ever before.

A huge thank you to all of those who have helped create this event, especially to the Executive Leadership Team, our sponsors, and all of you who support it!

Cardiovascular disease remains the number one killer worldwide. Heart disease and stroke touch the lives of millions in our communities – so many of our loved ones, friends, and colleagues. Yet, there is hope. Though Go Red has done an amazing job raising awareness, there is still so much more to accomplish!

The Go Red movement encourages everyone to undergo essential health checkups and to monitor mental health and stress levels, both of which significantly impact heart health. Together with Go Red, we can continue to educate others on improving their health. Like many of you, we have personally been affected by heart disease. As women, daughters, sisters, wives, and friends, we understand the importance of knowing our numbers, listening to our bodies, and helping those in our lives better understand heart health. Whatever your reason for being involved—whether to support the mission or to raise awareness—you are making a difference. Together, we can defeat this disease.

We hope you enjoy the event today as we build on success to raise awareness of heart disease. Thank you with all our hearts for your support.

Thank you,

Alexsa Marino
