

Everly Survivor

Everly was born with many critical heart defects that affect her life drastically. She has had many procedures and three open heart surgeries with a fourth one scheduled. Everly takes medication every day to help her conditions. Doctors and nurses have taken great care of Everly, so now she plans to take great care of her heart even though there is more work to be done. Everly wants people to participate in Kids Heart Challenge/ American Heart Challenge to stay healthy, learn CPR, and help kids like her live longer and happier lives.

The Kids Heart Challenge and American Heart Challenge funds research that helps kids have longer and stronger lives. Your support helps families have hope and for that they are so grateful.

Together, we are creating a world of longer, healthier lives.
