

PARTICIPANT HOW TO REGISTER ONLINE

1. FIND YOUR STUDENT'S SCHOOL & SIGN UP!

Go to heart.org/Schools or search "AHA Schools" in your app store to download the app.

Select grade and state, then type in your student's school name.

When you see your student's school, click "Sign Up" under your school's listing.

2. GET STARTED

Select "Yes, Log In" if your student participated last year. Select "No, I'm New" to get started and register.

If you forgot your username or password, go ahead and click "Yes, Log In" and then "Forgot Username or Password."

You can use the same email if you have multiple students participating in American Heart Challenge or Kids Heart Challenge but each will require a unique username and password.

3. COMPLETE YOUR PROFILE & SET A GOAL!

Answer a few questions and be sure to provide your student's T-shirt size (earned if they raise \$50+). Please read and agree to the Parental Consent section.

Set a fundraising goal and make a personal donation to kick things off!

4. PERSONALIZE YOUR PAGE!

Personalize your student's page by adding photos and sharing why heart health is important to your family.

Send emails or texts to ask for donations and watch your student reach their goal.

If you added your own donation during the page setup process, a screen asking for payment information will appear.

Thank you for helping save lives!
