MY STORY

Would you help me save lives with the American Heart Association?

I'm participating in my school's Kids Heart Challenge and we're raising money to help everyone have healthy and strong hearts. We're also learning about kids with special hearts - hearts that don't exactly work just right - and raising money to help kids like them by funding discoveries of new medicines and treatments.

I'm also doing things like learning how to keep my own heart healthy, practicing gratitude to de-stress, taking daily healthy challenges and learning about CPR!

I'm so excited to help save lives and help everyone have strong hearts. Will you please help me? Thank you!
