HEART HERO

Audrey

Survivor, 12th Grade

Audrey has had two open-heart surgeries and seven cardiac procedures since birth but thanks to her doctors she is much better now. After being adopted from China into a loving family, Audrey was later reunited with her identical twin who shares the same heart condition and wants people to know that the American Heart Association helps children like herself and her sister. Audrey is so passionate about health that she became a Certified Nursing Assistant to help others and looks forward to sharing her story as a Youth Heart Ambassador.
