Eli

Survivor, Grade 5

Eli was born with a rare and serious heart condition. A part of his heart that sends blood to his lungs didn't form the right way, and there was also a hole in his heart. Eli has had three open-heart surgeries so far to help his heart work better.

Today, Eli feels great and can do all the things he loves. He keeps his heart healthy by playing baseball, drinking lots of water and playing outside with his brothers and friends. Eli is proud to be part of Kids Heart Challenge/American Heart Challenge and wants to help other kids learn how to take care of their hearts.

The **Kids Heart Challenge** and **American Heart Challenge** funds research that helps kids have longer and stronger lives. Your support helps families have hope and for that they are so grateful.

Together, we are creating a world of longer, healthier lives.
